Report of Independent Registered Public Accounting Firm

The Board of Directors
MWA Financial Services, Inc.

We have audited the accompanying consolidated statements of financial condition of MWA Financial Services, Inc. (the Company, wholly owned by Modern Woodmen of America) as of December 31, 2009 and 2008, and the related consolidated statements of operations, changes in stockholder's equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of MWA Financial Services, Inc. at December 31, 2009 and 2008, and the consolidated results of its operations and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic consolidated financial statements taken as a whole. The accompanying supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic consolidated financial statements, but are supplemental information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audits of the basic consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic consolidated financial statements taken as a whole.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements

December 31, 2009

1. Summary of Significant Accounting Policies

Organization and Basis of Presentation

MWA Financial Services, Inc. (the Company), a wholly owned subsidiary of Modern Woodmen of America, was incorporated on February 2, 2001, and began operating as a broker-dealer on October 10, 2001, upon its approval for membership in the Financial Industry Regulatory Authority (FINRA). The Company deals primarily in the sale of non-proprietary mutual fund shares and variable products. The Company clears its securities transactions on a fully disclosed basis through Pershing LLC (the clearing broker).

The consolidated financial statements (see Note 2) include the accounts of the Company and its wholly owned subsidiary, MWAGIA, Inc., which is involved in the sale of non-proprietary insurance products. All significant intercompany accounts and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. It is possible that actual experience could differ from the estimates and assumptions utilized.

Revenue Recognition

The majority of the Company's revenues were derived from dealer concessions on trades of non-proprietary mutual funds and fees for the distribution of variable products by registered representatives (see Note 6). Revenues are recognized on an accrual basis upon receipt of investor funds and remittance to the clearing broker or mutual fund company. Related commissions due to registered representatives are concurrently recognized based on agreed-upon rates.

Cash and Cash Equivalents

For purposes of the consolidated statements of cash flows, the Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Fixed Assets

Fixed assets, primarily including office equipment, are stated at cost less accumulated depreciation. Depreciation is computed on the straight-line method using an estimated useful life of five years.

Deferred Income Taxes

Deferred income tax assets or liabilities are computed based on the difference between the financial statement and income tax bases of assets and liabilities using the enacted marginal tax rate. Deferred income tax expenses or credits are based on the changes in the asset or liability from period to period (see Note 4).

Subsequent Events

The financial statements are adjusted to reflect events that occurred between the balance sheet date and the date when the financial statements are issued February 19, 2010, provided they give evidence of conditions that existed at the balance sheet date.

Events that are indicative of conditions that arose after the balance sheet date are disclosed, but do not result in an adjustment of the financial statements themselves.

Fair Value Measurements and Disclosures

The Financial Accounting Standards Board (FASB) issued authoritative guidance effective January 1, 2008, for using fair value to measure assets and liabilities. In accordance with this guidance, fair value is defined as the price that the Company would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

This guidance establishes a three-tier hierarchy to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value, including a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances.

The three-tier hierarchy of inputs is summarized below:

- Level 1 – quoted prices in active markets for identical investments
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

It is the Company's policy to maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements, in accordance with the fair value hierarchy in Accounting Standards Codification (ASC) 820. The Company used Level 1 valuation techniques to measure fair value of cash and cash equivalents of \$1,382,453 during the year ended December 31, 2009, and cash and cash equivalents of \$1,102,335 and short-term investments of \$100,000 during the year ended December 31, 2008. The Company did not have any fair value Level 2 or Level 3 assets or liabilities at December 31, 2009 and 2008.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Recent Accounting Pronouncements

Current Adoption of Recent Accounting Guidance

On July 1, 2009, the FASB Accounting Standards Codification™ (Codification) was launched as the single source of authoritative non-government GAAP. Accounting guidance promulgated by the FASB is communicated through an Accounting Standards Update (ASU). An ASU provides the reason for the update and details the amendments to the Codification. Guidance in the Codification is organized by Topic, each representing a collection of related guidance (e.g., Financial Services – Insurance). Topics are further subdivided into Subtopics (e.g., Insurance Activities), and Sections (e.g., Recognition, Measurement, or Disclosure).

The Company adopted guidance that establishes the Codification as the source of authoritative GAAP recognized by the FASB to be applied by non-governmental entities as of the period ended September 30, 2009. All guidance contained in the Codification carries an equal level of authority. The adoption required updates to the Company's financial statement disclosure, but did not have a material impact on the Company's results of operations or financial position. This guidance was formerly known as Statement of Financial Accounting Standards (SFAS) No. 168, *the FASB Accounting Standards Codification™ and the Hierarchy of Generally Accepted Accounting Principles*, a replacement of FASB Statement No. 162.

ASC 855, Subsequent Events

The Company adopted guidance that establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued as of the period ended June 30, 2009. The guidance requires the disclosure of the date through which an entity has evaluated subsequent events and whether that date represents the date the financial statements were issued or were available to be issued. The adoption did not impact the Company's results of operations or financial position.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

2. Summarized Financial Information of MWAGIA, Inc.

The Company reports information pursuant to Section 17 of the Securities Exchange Act of 1934 and prepares its net capital computation in accordance with Rule 15c3-1 of the Securities and Exchange Commission (SEC) (see Note 5) on an unconsolidated basis. Summarized financial data for the Company's wholly owned subsidiary, MWAGIA, Inc. is as follows:

	December 31	
	2009	2008
Cash and cash equivalents	\$ 217,477	\$ 134,952
Receivables from brokers, dealers, and others	76,507	113,556
Other assets	3,981	3,804
Total assets	<u>\$ 297,965</u>	<u>\$ 252,312</u>
Due to Modern Woodmen of America	\$ 35,864	\$ 34,552
Other liabilities	181,691	178,259
Stockholder's equity*	80,410	39,501
Total liabilities and stockholder's equity	<u>\$ 297,965</u>	<u>\$ 252,312</u>
	Year Ended December 31	
	2009	2008
Revenues	\$ 1,769,638	\$ 1,800,741
Expenses	(1,828,729)	(1,832,646)
Net (loss) income	<u>\$ (59,091)</u>	<u>\$ (31,905)</u>

*Eliminated in consolidation.

3. Transactions With Customers

For transactions in which the Company, through the clearing broker, extends credit to customers, the Company seeks to control the risks associated with these activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company and the clearing broker monitor required margin levels daily and, pursuant to such guidelines, request customers to deposit additional collateral or reduce securities positions when necessary.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

3. Transactions With Customers (continued)

The Company has agreed to indemnify the clearing broker for any losses that it may sustain from the customer accounts introduced by the Company. At December 31, 2009, there were no amounts to be indemnified to the clearing broker for these customer accounts.

4. Income Taxes

The Company and its subsidiary file consolidated income tax returns, including only their own operations, since the ultimate parent company, Modern Woodmen of America, is a tax-exempt fraternal benefit society.

At December 31, 2009, the Company had a tax net operating loss carryover of \$7,225,598. The tax net operating losses arising in 2009 of \$993,496 and in 2008 of \$846,105 may be carried forward until 2029 and 2028, respectively, to reduce future taxable income. The remaining carryover of \$5,385,997 arose in 2001 through 2007 and may be carried forward until 2021 through 2027. The net operating loss carryover represents the only significant temporary difference between the carrying amounts of assets and liabilities for financial reporting purposes and amounts used for income tax purposes at December 31, 2009 and 2008. Management has established a valuation allowance for the full amount of the related net deferred tax assets of \$2,456,703 and \$2,118,915 at December 31, 2009 and 2008, respectively, because of the uncertainty of future income estimates necessary for its ultimate realization.

The Company has analyzed all material tax provisions under the guidance of ASC 740, *Income Taxes Related to the Accounting for Uncertainty in Income Tax*, and has determined that there are no tax benefits that should not be recognized as of December 31, 2009 or December 31, 2008. There are no unrecognized tax benefits that would affect the effective tax rates.

5. Net Capital Requirements

The Company is subject to the uniform net capital requirements of the SEC under Rule 15c3-1. The SEC's requirements provide that equity capital may not be withdrawn or cash dividends paid if certain minimum net capital requirements are not met, and that the ratio of aggregate indebtedness to net capital as defined therein shall not exceed 15 to 1. At December 31, 2009, the Company had net defined capital of \$789,155, which was \$689,155 in excess of the required net capital of \$100,000 at that date. At December 31, 2009, the Company's ratio of aggregate indebtedness to net capital was 0.70 to 1. Various other regulatory agencies may impose additional capital requirements.

MWA Financial Services, Inc.

Notes to Consolidated Financial Statements (continued)

5. Net Capital Requirements (continued)

Under the clearing arrangement with the clearing broker, the Company is also required to maintain certain minimum levels of net capital and comply with other financial ratio requirements. At December 31, 2009, the Company was in compliance with all such requirements.

The Company is exempt from maintaining a special reserve bank account under Rule 15c3-3(k)(2)(A) and Rule 15c3-3(k)(2)(B).

6. Related-Party Transactions

The Company's variable product distribution fee income relates to services performed in connection with the distribution of variable products of Modern Woodmen of America, its parent. Modern Woodmen of America compensates the Company at the rate of \$55,000 per month under a distribution agreement that commenced in May 2002. Substantially all of the Company's operating expenses represent allocations from or payments by Modern Woodmen of America, which is then reimbursed by the Company. This includes the cost of the Company's employees and the allocated costs of their participation in various qualified employee benefit plans covering substantially all employees and sponsored by Modern Woodmen of America. Separate plan information disaggregated by the subsidiary company is not available on the components of pension cost or on the funded status of the defined-benefit pension plan.

During 2009 and 2008, Modern Woodmen of America contributed capital of \$1,100,000 and \$1,000,000, respectively, to the Company. The future operation of the Company is dependent upon such continued capital contributions until profitable operations can be achieved.

Statement Pursuant to Rule 17a-5(d)(4)

December 31, 2009

There were no differences between the computation of net capital under Rule 15(c)3-1 included in this audited report and the computation included in the Company's corresponding unaudited Form X-17A-5 Part IIA filing submitted to the FINRA on January 25, 2010.

Supplementary Report of Independent Registered Public Accounting Firm on Internal Control Required by Rule 17a-5

The Board of Directors
MWA Financial Services, Inc.

In planning and performing our audit of the consolidated financial statements and supplemental schedules of MWA Financial Services, Inc. (the Company) as of and for the year ended December 31, 2009, in accordance with auditing standards generally accepted in the United States, we considered its internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. The study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to

achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2009, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, the FINRA, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers and is not intended to be, and should not be, used by anyone other than these specified parties.
